MINIMUM SIGNATURES

Deadline extended.
New date to be announced soon.

A signature does not automatically enact the bill. It gives the initiative the legal basis to be submitted to Parliament.

WHAT IS THE INITIATIVE?

“Veprimi Qytetar për Demokraci Funksionale” (Citizen Action for Functional Democracy) is a voter-led legislative initiative to amend Albania's Electoral Code. It seeks an electoral reform shaped through direct citizen and civil-society involvement, rather than only through agreements between political parties.

WHO ARE THE INITIATORS?

Representative Committee:
Kristaq Kume • Andi Tepelena • Edlira Çepani • Edmond Çata • Etleva Merko • Gerta Meta • Ilir Aliaj • Rezearta Çaushaj • Rigels Xhemollari • Silvana Bello

WHAT DOES THE INITIATIVE AIM TO CHANGE?

- 100% open candidate lists and greater weight for preferential voting.
- Citizen lists with independent candidates, creating an option outside political parties.
- Depoliticisation of election administration and more professional management.
- Stronger oversight of political finance, public resources and electoral violations.
- Improved voter registers, overseas voting and digital electoral processes.
- Better voting access for persons with disabilities, including mobile ballot boxes.

WHY DOES DIASPORA PARTICIPATION MATTER?

Because the reform directly affects voting from abroad. The draft addresses the overseas voter register and safeguards for postal voting. Law No. 54/2019 states that every eligible voter may participate in a voter-led legislative initiative and also provides for electronic signatures. For Albanians abroad, participation is a way to have a voice in the rules that determine how they vote and how their votes are represented.

GET INFORMED. READ THE DRAFT. DECIDE WHETHER YOU WANT TO SUPPORT IT.
